EDUCATION

Lehman College – *Bronx, New York*

Expected Graduation: *May 2022*

Bachelor of Science - Computer Science

GPA: 3.8

- Presidential Scholar, Phi Beta Kappa
- Data Structures & Algorithms, Mobile Programming, Discrete Structures & Applications to Computer Science

PROJECTS

Meet-Up App - *Java, Android Studio*

May 2021

- Collaborated with a team of 5 to plan, designate roles, hold meetings, and build an app
- Used firebase to create accounts and allow users to message, call, and pick a location to meet at
- Handled video editing for a video which would be used for a presentation
- Presented in a class of 40 students and explained our roles and the process we went through

Foodie App- *Java, Android Studio*

April 2021

- Developed an app that displays a variety of meals. When clicked it displays more information on it.
- Users have the ability to add their own meals and details along with it.
- Functions with broadcast functions to display a random meal when the user gets home.

Scientific Calculator - *Java, Eclipse*

November 2018

- Constructed a program which is able to switch between standard and scientific form of a calculator through the use of if statements
- Handled invalid input by checking data type in if loop. If invalid input is entered, user is told to input a valid statement
- Presented in a class of 40 students and used as an example for students who had difficulty with the project

VOLUNTEER EXPERIENCE / ACTIVITIES

Braven Program – *Bronx, New York*

August 2020 – December 2020

Member

- Attended weekly meetings to learn and build our career knowledge and portfolio
- Completed the Capstone challenge which was presented by Weight Watchers
- Collaborated with a team of 6 to create an idea/product that would attract youth's attention to WW
- Presented our project to 90 people including members of WW and Lehman College

St. Lucy's Church – *Bronx, New York*

September 2016 – May 2017

Assistant

- Cooperated with other assistants and teachers to make sure there were enough materials for 100 students
- Maintained Classroom health and safety requirements before and after students were in class
